PERSONAL OVERVIEW

Information Technology undergraduate at the University of Moratuwa with strong problem solving skills, a solid foundation in object oriented programming, data structures and algorithms, and full stack software development. Experienced in building practical applications, implementing reliable backend solutions, and addressing real world software challenges through hands on projects. A fast learner with an analytical mindset and a strong commitment to writing clean, maintainable code. Seeking a Software Engineering internship to contribute to impactful software solutions while continuously growing as an engineer.

EDUCATION

- **BSc (Hons) in Information Technology |** University of Moratuwa — 2024 – 2028 Expected
  Current CGPA: 3.53 / 4.00

- **G.C.E. Advanced Level (Physical Science) |** St. Thomas' Girls High School, Matara — 2018 – 2022
  Results: Physics (A), Chemistry (A), Combined Mathematics (B)
  Z-Score: 1.9575

PROJECTS

- **Assura – Fixed Asset Management System** — 2025-2026

  Contributed to a second year academic group project to develop a fixed asset management system supporting asset requests, assignments, transfers, procurement, and tracking. Implemented Employee and Division Head workflows for asset request handling, asset transfers, and returns. Integrated frontend workflows with backend REST APIs to support asset management operations.

  Skills: Angular, TypeScript, ASP.NET Core Web API, MySQL, Vercel

- **SyncReserve – Concurrent Reservation Management Platform** — 2026

  Developed a full stack reservation platform designed to prevent double booking under concurrent requests. Implemented database transactions, pessimistic locking, and unique constraints to protect reservation integrity. Built authentication and role based access control using Spring Security and JWT. Tested 20 simultaneous requests for the same seat, achieving 1 successful reservation, 19 conflicts, and 0 double bookings. Containerized the application using Docker and Docker Compose to support consistent development and deployment environments.

  Skills: Java, React, Spring Boot, PostgreSQL, Spring Security, JWT, Docker, AWS

- **MockMate – AI-Powered Interview Practice Platform** — 2026

  Developed an AI powered interview practice platform that generates role-specific questions based on job roles and difficulty levels. Integrated Google Gemini API to evaluate written answers and provide personalized feedback, scores, and performance insights. Implemented authentication, interview history, performance tracking, and account management, and deployed the application on Vercel.

  Skills: React, Node.js, PostgreSQL, Gemini API , JWT

TECHNICAL SKILLS

- **Programming:** Java, JavaScript, TypeScript, Python, C, C#
- **Frontend:** React, Angular, HTML, CSS
- **Backend:** Spring Boot, Node.js, Express.js, ASP.NET Core Web API, REST APIs
- **Databases:** PostgreSQL, MySQL
- **Security:** Spring Security, JWT, BCrypt
- **Tools & DevOps:** Docker, AWS, Vercel,Git, GitHub, Postman, VS Code, Figma, Swagger

CERTIFICATIONS

- AWS Cloud Quest: Cloud Practitioner – Amazon Web Services — 2026
- SQL (Basic, Intermediate) & Java (Basic) – HackerRank — 2026
- Web Design for Beginners & Python for Beginners – University of Moratuwa — 2024

LEADERSHIP & VOLUNTEERING

- IEEE WIE UOM: Membership Development Committee Member ; Logistic Lead for Futuro 6.0 — 2026
- IEEE Professional Communication Society UOM: Session Organizing Committee Member for CareerX — 2026
- Rotaract Club UOM: Delegates Handling Committee Member for Resume Centre Official Career Fair — 2026
